

Seventh Annual MongoDB Innovation Award Winners Announced

June 10, 2020

NEW YORK, June 10, 2020 /PRNewswire/ -- [MongoDB, Inc.](#) (NASDAQ: MDB), the leading, modern, general purpose data platform, today announced the nine winners of the seventh annual MongoDB Innovation Awards. The winners are being honored during MongoDB.live 2020 happening virtually June 9-10, 2020.

The MongoDB Innovation Awards honor projects and people who dream big. They are presented annually to celebrate the groundbreaking use of data to build compelling applications and the creativity of professionals expanding the limits of technology with MongoDB. This year the company received entries across dozens of industries, from cloud-native start-ups to Fortune Global 500 companies.

"The future of every company is powered by software, and current events have reinforced the need for modern technology platforms that enable companies to quickly seize new opportunities or respond to new threats," said Dev Ittycheria, President & CEO of MongoDB. "These organizations have created innovative and high-impact applications that have transformed their businesses, and in some cases, made major advancements in health and safety to make the world a better place. Congratulations to all of our winners."
